TOOTHPASTE MANUFACTURING EQUIPMENT SALE

INSPECT WHILST INSTALLED AND STILL MANUFACTURING

Due to the rationalisation of a multi-national toothpaste manufacturing facility located at Ermington Sydney, **Fallsdell Machinery** has been assigned to handle the marketing and sale of all their toothpaste manufacturing equipment. All the equipment can be viewed in working order up until December 2011. Don't miss this unique opportunity to purchase high quality equipment from one of the worlds leading manufacturers, Please contact us for an onsite inspection, additional information and pricing, all items are able to be viewed on www.fallsdell.com.au

LINE 3: HIGH SPEED TUBE FILLING LINE UP TO 150 TUBES PER MINUTE, consisting of

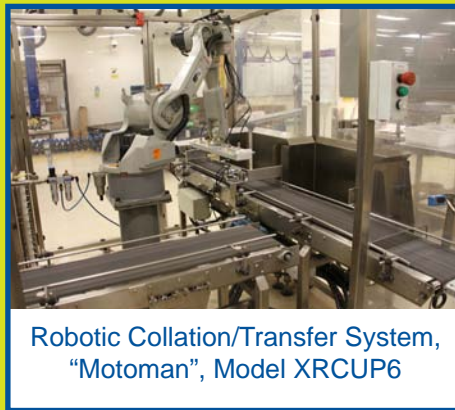

“Nordenmatic”, Tube Filler, Model 2002, complete with ABB Robot Model IRB 2400 M98 tube loader, 2 filling heads, suitable for 3 products/colours in the one tube, hot air sealing with leak detection system, Year 2002

“Nordenpac” Cartoner, Model 2002, setup with infeed conveyor with push type transfer, automatic carton loading machine / erection station, Nordson Vista Gluing system, fully guarded, fully adjustable and automatic, full controls

Checkweigher, “Anritsu”, Model KW534A, 10gm to 1200gm

Robotic Collation/Transfer System, “Motoman”, Model XRCUP6

Cellophane Overwrapper, “IMA BFB”, Model 3786, stacking type

“Marchesini” Case Packer and Palletiser, Model MCP840, Year 2000, setup for tape sealing and complete with a HSAjet inkjet printer fully guarded and full controls.

LINE 2: HIGH SPEED TUBE FILLING LINE UP TO 160 TUBES PER MINUTE, consisting of

“Nordenmatic” Tube Filler, Model 2002, unit is setup with twin automatic tube loaders, 2 head fill, suitable for 3 different products/colours in one tube, Hot air sealing, full controls

“Nordenpac” Cartoner, Model 2002, setup with infeed conveyor with push type transfer, automatic carton loading machine / erection station, Nordson Vista Gluing system, fully guarded, fully adjustable and automatic, full controls

“Pester” Heat Shrink Tunnel and Collator, 200mm wide x 2100mm long infeed conveyor, Pewo Pack 450 SN stacking type collator and sleeve wrapper, 420mm wide Pester Heat Shrink Tunnel, gravity out-feed conveyor.

“Anritsu” Check weigher, Model KW534A, 10gm to 1200mg.

“Cling”, Carton Taper, Model XL35 complete with inkjet Printer

Also Available

- S/S Tables and Trolleys
- Platforms
- Sumi Transporter
- S/S Diverter Valves
- Centrifugal and Diaphragm pumps
- Scales and Balances
- Platform Scales
- 2 x Pallecon Spring Tilter unloading system, 1 with load cells

Contact: Fallsdell Machinery for a comprehensive list and to arrange an on-site inspection.

PLEASE NOTE: ALL INSPECTIONS BY APPOINTMENT ONLY

LINE 1: HIGH SPEED TUBE FILLING LINE UP TO 170 TUBES PER MINUTE, consisting of

“Nordenmatic”, Tube Filler, Model 2002, unit is setup with automatic tube loader, 2 head fill, speed of 200 tubes per minute, control panel, high frequency sealing head with controller.

“Nordenpac”, Cartoner, “ Model 2002, unit is setup with fully automatic infeed conveyor, automatic carton erector, Nordson Hot Gluing unit, fully guarded, fully adjustable, full control panel, rejection station, and complete with transfer conveyor

“Anritsu”, Checkweigher, Model KW534A, 10gm to 1200gm capacity, 220 pieces per minute.

“Pester” Heat Shrink Tunnel and Collator, 200mm wide x 3300mm long infeed conveyor, Pewo Pack 450 SN stacking type collator and sleeve wrapper, Pester Heat Shrink Tunnel

“IMA” “BFB”, Case Packer, Model CP18BA, infeed conveyor, automatic case feed, complete with setup for tape sealing 2004 model

Large quantity of format and spare parts to suit lines 1, 2 and 3

“PRESSINDUSTRIA” 3000 LTR JACKETED / VACUUM MIXING VESSEL, consisting of

Stainless Steel Steam Jacketed Vacuum Mixing Vessel with Hydraulic Lift out Contra Rotating variable speed scrape surface mixer and 2 speed in-tank emulsifier complete with Vacuum powder dump hopper, control panel, 30kw 259 pm Sine Pump, additional external 37kw Ultra Turrax Inline Emulsifier, hydraulic power pack, 3 x vacuum pumps including interceptor filter.

“PRESSINDUSTRIA” 2000 LTR JACKETED / VACUUM MIXING VESSEL, consisting of

Stainless Steel Steam Jacketed Vacuum Mixing Vessel with Hydraulic Lift out Contra Rotating variable speed scrape surface mixer and 2 speed in-tank emulsifier complete with Vacuum powder dump hopper, control panel, 7.5kw, 220 rpm Sine Pump, additional external 37kW IKA Dispax reactor emulsifier, hydraulic power pack, vacuum pump including interceptor filter.

Contact: Fallsdell Machinery for a comprehensive list and to arrange an on-site inspection.

STAINLESS STEEL TANKS AND HOPPERS

TANK FARM

2 x 25,000 ltr stainless steel totally enclosed storage tanks, tube legs setup in a galvanised platform with stairway, pneumatically operated valves, s/s pipe work 1 x 50mm dia "SSP" Stainless Steel Lobe Pump, 4kw 444rpm Model SR/4/055/LS/3A, and a 63mm Stainless Steel "Wilden" Double diaphragm pump

25000 Ltr, stainless steel totally enclosed storage tank

5500 Ltr Stainless Steel vacuum rated totally enclosed tanks
8 available

S/S Mixing Tanks, totally enclosed
Lightnin Mixers, insulated, load cells
3 x 200 ltr 2 x 250 ltr 1x300 ltr

14000 ltr S/S Vacuum rated Totally Enclosed Tanks 3 available

3 x 2300 ltr S/S mobile hoppers

13 x 3500 ltr S/S mobile hoppers

4 x 1000 ltr S/S Hoppers, 1 x mobile base

POWDER HANDLING AND STORAGE

"Flexicon", Bulk Bag Unloader, setup in a stainless steel adjustable mobile frame for forklift loading of bulk bags. Unit complete with power cincher, bag activators and stainless steel rotary valve suitable for vacuum transfer. Safe working load of 1500kg, 2 available

Bag unloading room, complete with 2 x "Flexicon", Bulk Bag Unloaders, each setup in a mild steel frame with electric hoist and trolley. Units complete with power cincher, bag activators, s/s hopper with agitator and vibrator. Safe working load of 1500kg, also included 2 x "Wilden" M8 Diaphragm Pumps, "DCE Vokes", dust collector and Rapid Roller Door

Bag unloading room, complete with "Flexicon" Bulk Bag Unloader, mild steel frame with electric hoist and trolley, power cincher, bag activator, S/S hopper with vibrator, deflator, S/S rotary valve. SWL 1500kg, also included roots type blower DCE Vokes dust collector and Rapid Roller Door

Dust Collector, "DCE", Unicell Model C.48-4K11, complete with collection bin and controller.

4 x 8000 ltr S/S powder silos, Totally enclosed with manway, fitted with load cells, filters and S/S rotary valves

ANCILLARY EQUIPMENT

8 x "Maso" Sine Pumps, Type SPS-4", 3kw 3 phase 72rpm

3 x "Maso" Sine Pumps, Type SPS-4", 9.2kw 3 phase 99rpm

4 x "SSP" Lobe Pumps, Model SR-5-116-HD/3A, 3kw, 65rpm, 63mm dia

2 x "Johnson" Lobe Pumps, Model 2/0017, 1kw, 328rpm 30mm dia

"Safe-T-Store" Flammable Goods Cabinet, 100 Ltr capacity

3 x Low Profile Lift Tables, Model Hy1001, 1000kg max capacity

2 x VacuEasyLift, Vacuum Bag Lifter, Model 120, Max capacity 40kg, 6mtr overhead gantry

"Jungheinrich" Tank Transporter, Model ERZ265, 6500kg capacity

"Siat" Carton Taper, Model S8/4-S, Top and Bottom Taper

"LSK Industries" "Pallet De-Stacker, Model PD25, approx 14 pallets

Various stainless steel Key Stations

2 x "Pratt", Safety Shower & eyewash stations

2 x Ystral 1.1kw variable speed Mixers

Chiller, "Aqua Cooler", Model C400A, 4hp unit
